PROFILE SUMMARY

Associate Product Manager-ready professional with experience at the intersection of product discovery, consumer insights, and business execution. Known as an exceptional listener with strong user empathy, able to uncover real user and business problems through structured discovery. A quick adapter with a strong can-do ownership mindset, comfortable operating in ambiguous, fast-paced environments and learning across domains. Backed by solid grounding in product frameworks, MVP development, GTM strategy, and technical skills in Python, SQL, and SDLC concepts to enable data-backed product decisions. Currently working in a Founder's Office, supporting product discovery, validation, and go-to-market execution

CORE SKILLS

- Product Discovery & User Research (IDIs, FGDs, Concept Testing)
- Problem Framing, Hypothesis Building & Validation
- Feature Prioritization (Value vs Effort, MVP vs MDP)
- PRD Inputs & Product Documentation
- Go-To-Market (GTM) Strategy & Launch Support
- Market, Competitive & User Analysis
- Stakeholder, Vendor & Cross-functional Collaboration
- Exceptional Listening & User Empathy
- Python Programming (analysis, logic building, automation basics)
- SQL (data extraction, joins, analysis queries)
- DBMS Concepts (data structures, relational databases)
- SDLC Understanding (requirements → development → testing → release)
- Data Analysis & Reporting
- Insight Storytelling & Visualization (turning data into decisions)
- Quick Adaptability in New Domains & Ambiguous Environments
- Ownership-driven, "Can-Do" Execution Mindset
- Broad Domain Learning across Product, Research, Tech & Business

Tools & Platforms: Miro, Jira, Trello, Figma (wireframing), Apollo, SPSS, SQL, Python, Canva, MS Office Suite, LLMs (ChatGPT, Claude, Perplexity, Notebooks)

PROFESSIONAL EXPERIENCE

Brooksphere Research — *Founder's Office*

Nov 2024 – Present

- Partnered directly with founders to **identify user and business problems** through active listening, qualitative research, and data analysis
- Led **consumer discovery initiatives** (IDIs, FGDs, concept tests), translating insights into clear **product and GTM recommendations**
- Designed questionnaires, managed datasets, and supported **analysis, reporting, and insight storytelling**
- Applied **structured problem-solving and SDLC thinking** while supporting product and research execution
- Conducted **competitive analysis, market sizing, and usage mapping** to inform product decisions

- Took end-to-end ownership in coordinating **vendors, panel partners, and internal teams** to ensure quality delivery
- Supported proposals, finance coordination, and execution tracking as part of the Founder's Office

Logit Group — Project Coordinator

July 2023 – Nov 2024

- Managed international stakeholder communication and execution tracking
- Supported manual testing of in-house software, validating workflows and usability
- Created user guides and documentation, aligning with SDLC practices
- Worked closely with tech, operations, and business teams to deliver on timelines

Product & strategy projects

AI-Mapped Digital Consumer Panel Platform

- Conceptualized a **real-time qualitative and quantitative consumer panel** for brands running continuous research
- Designed the MVP leveraging **social media signals** for dynamic recruitment and segmentation
- Defined **value proposition, feature prioritization, and GTM approach**, focusing on speed, scale, and insight freshness

Fully Automated AI-Driven Media House

- Designed a **multi-layer AI agent system** to automate content ideation, creation, learning, and distribution
- Built an end-to-end workflow covering **trend detection, generative content creation, feedback loops, and iteration**
- Focused on operational efficiency, scalability, and minimal human dependency

Education:

Bachelor of Computer Applications (BCA)

- Score: **75%**

Intermediate (12th Grade)

- Score: **79%**

High School (10th Grade)

- Score: **85%**

Certifications:

- My Sql certificate
- Data analytics certificate
- Microsoft excel certificate
- Python Programming certificate

Achievements

- Silver Medalist – Techthon(7-day Tech + Management competition during graduation)
- State-level Squash Player
- Volunteer in a college program called Kartavya, where we used to teach poor children
